

I Imagine A Jungle ...

Where there are animals and lots of beautiful trees and plants.

Where the wind blows and the trees sway.

There is a beautiful jungle.

I really feel connected to the jungle because I love animals with fluffy fur.

I love to climb tall and fresh smelling trees and I love to explore caves and rocks.

I love the smell of the daisies and cherry blossoms.

My cat Chase and I both love to climb tall and green trees.

The jungle feels like my home.
